City of Tawas City Code of Ordinances, Zoning 22, Section 3.09 Building & Accessory Structures, B. Accessory Structures

**2. Swimming Pools.**

Permanent, fixed-in-place swimming pools shall not be located in the front yard and shall meet current building code regulations.

- a. For the protection of the general public, all areas containing swimming pools with a water depth of greater than two (2') feet shall be completely enclosed by a fence not less than four (4') feet in height. The gates shall be of a self-closing and latching type, with the latch on the inside of the gate not readily available for children to open. Gates shall be capable of being securely locked when the pool is not in use for extended periods. A fence is not required for an above-ground pool with walls that are higher than four (4') feet in height provided any ladders are removed and access is securely locked when the pool is not in use. b. Above ground, pools shall be completely fenced in accordance with subsection b. above or shall be equipped with a retractable ladder which is capable of being securely locked..

**I have read and understand the above Ordinance and agree to abide by the requirements.**
